**DETAILED ACTION**

***Election/Restrictions***

1. Claims 1-6 and 19-20 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected control system, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 10/11/2006.
2. This application contains claims directed to the following patentably distinct species: species 1 a method for controlling the angle of a swash plate employing a PID type algorithm, species 2 a method employing a PID plus feed forward algorithm, species 3 employing a KIDT1 algorithm, species 4 and 5 each being a method employing a pilot valve with one and two boost spools respectively, species 6 a method employing a single pressure control that being a flow control, species 7 a method employing two pressure controls, and species 8 and 9 each being a method employing a dithered output signal but where in the pressure control and the microprocessor respectively dither the output signal. The species are independent or distinct because each employ a different step not generic to a given step in a method of another species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 8 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3746

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
